

Blindfold Vol. 1

I came from a large family, neither rich nor poor. We never went hungry, but we always had to work for what we wanted. So when I was sent to work as the personal assistant to Isadora Lang, the twenty year-old orphan and multi-billionaire heiress, I knew I could never fit into her world. Not that I had any desire to fit in that was, until I met her gorgeous ass of an older brother, Ashford Lang. For the last thirteen years, Ashford Lang has been the substitute parent to his younger sister, and when he hears that Isadora has hired a personal assistant named Toni Gallagher, he's determined to do what he's always done protect his baby sister. The last thing he expects when meeting Toni is a tiny, fiery redhead who doesn't give a damn who he is. A challenge no doubt. One that Ash is more than willing to take. What he doesn't know is that, soon, Toni will be the least of his concerns. Don't miss the first steamy book in the Blindfold series, the newest collaboration from M. S. Parker and Cassie Wild.
