

Light in Shadow

Zoe Luce is a successful interior designer in the Arizona town of Whispering Springs whos developed an unusual career specialty - helping recently divorced clients redesign their homes, to help them forget about the past and start anew. But Zoe knows that some things cant be covered up with a new coat of paint. And when she senses that one of her clients may be hiding a dark secret, she enlists P.I. Ethan Truax to find the truth. Working together, they solve the mystery...and barely escape with their lives. But Ethans exquisite detection skills are starting to backfire on Zoe: she never wanted to let him find out about her former life; she never wanted to reveal her powerful, inexplicable gift for sensing the history hidden with a houses walls; she never wanted him to know that Zoe Luce doesnt really exist. She never wanted to fall in love with him. Now, no matter how much she resists, Ethan may be her only hope - because the people shes been running from have found her. And just when Zoe dares to dream of a normal life and a future with the man she loves, her own past starts to shadow her every step - and threatens to take her back into a nightmare.

After sifting through possible names for this blog, I settled on Light and Shadownot Light and Darkness, not Black and White. My first entry - 4 minHow does an artist use light to help keep us out of the dark? visual storytelling to highlight the Lights can optionally cast shadows. This gives them greater realism (light does not reach occluded areas), but it can incur a bigger performance cost. There is a Light matters, a monthly column on light and space, is written by Thomas Schielke.
