

James Stephens's American diary is one of the most important documents of early Fenianism. It uncovers the difficulties facing the movement's founders, and offers insight into mid-nineteenth-century American life and the Irish-American community. It also provides a unique first-hand impression of James Stephens's striking personality. It is one of Stephens's scarce full-length pieces and one of the best written, although it has not previously been published in its entirety. James Stephens (1825-1901) was born in Kilkenny. He founded the Irish Republican Brotherhood, the Irish branch of the Fenian movement, in 1858.
