

Valentine 1 (Volume 1)

Sometimes life can turn on a dime, and dreams can be shattered in moments. What would you do if you lost the love of your life? How would you cope if your world crashed around you? Could you survive and learn to love again? These are the questions that Nikki and Dean must answer when tragedy brings their lives to a grinding halt. One moment, they are happy and successful students with devoted partners and everything to look forward to. The next, their hopes and desires are in tatters. All it takes is one disturbed person and one act of craziness to turn lovers and dreamers into the tearful Valentine. Will they survive? Can they transcend disaster to love again? Is it possible to climb from the depths of despair to find happiness and fulfilment? Can they help each other to move on and rebuild a life worth living?
