

Zen and the Art of Truck Driving

If you have ever wondered what it is like to drive a semi cross-country from Phoenix, Arizona all the way to Tacoma, living for weeks on end between rest stops and truck stops; or if you have ever thought about how life is a finite moment in time, or even what the end of time might look like; or how to use a herculean display of strength to keep your sons in line, Zen and the Art of Truck Driving might be for you. Ten years ago, I enrolled in a truck driving school. Once I earned my Commercial Drivers License, they set me free with my own truck, where in the space of several weeks I compiled several hours of audio about my daily experiences while on the road. While driving, I also had large chunks of uninterrupted time to contemplate the meaning of life-- things that gripe me and simple things that make me happy, and what it means to be human. It was initially meant as an audio letter to a friend, but as it grew, I began to see its potential as a book. I am now presenting it to you for your own reading enjoyment.

My mood is on the upswing and I drive merrily, cutting other drivers off, dodging cars, pedestrians and other smaller objects. Without a camper Zen and the Art of Truck Driving in Madison, WI.
